

## **HOA Home Buying Seminars: 2014**

The Colorado HOA Forum will be conducting a series of HOA buying seminars in 2014. All presentations will be open and free to the public. The focus will be unique as the content will be presented from the home buyers perspective and not that of realtors, developers, lawyers, or other interest groups. Too often home buyers don't understand what they are moving into with an HOA and complicating this is that they don't know how to obtain the decision critical information.

The presentations will begin in early in 2014 and all on the Forum's mailing list will receive email notice.
