

## Realtor Services

The Realtor will guide the home seller and buyer through the home buying experience focusing on:

**Listing your home for sale**

**Show you homes for sale**

**Represent the home buyer/seller in arriving at the best possible sales/purchase price**

**Coordinate and expedite home inspections and closing**

**Identify mortgage companies for home financing**

The Realtor simply doesn't have the time, knowledge or ability to work with the home buyer on details of selecting the right community and HOA to fit their needs, providing a comprehensive list of questions concerning HOA governance and maintenance responsibilities, the intricacies and relationship between a home inspection and HOA responsibilities, questions to evaluate the financial health and appeal of an HOA, providing the details of how to successfully move into an HOA, identify and respond to the many financial issues between home owners and their HOA, matching the home buyer's compatibility with HOA covenants and restrictions, and working with the home buyer to ensure they receive all the needed documentation that describes the living environment within the HOA.

The HOA Home Buying Guides provides the home buyer with the tools and details others can't to ensure a comprehensive and successful home buying decision AND to mitigate the possibility of HOA Home Buying Past Purchase Blues!

## HOA Home Buying Guides

Realtor Services  
Versus Our Home Buying, Governance, and  
Ownership Guides

*Our Home Buying, Governance, Ownership Guides provide you the questions to ask and information to have when considering a home in an HOA.*

*Your Realtor simply doesn't have the in depth knowledge or time to provide you with the information in our guides!*

**Your Realtor should work with you in answering questions presented in our brochures. Ask your Realtor about completing HOA home sale transfer fees yourself and through them to save hundreds of dollars recommendations!**

versus

## HOA Home Guides Vs Realtor Services
